PROFILE

Recent 2026 Electronics and Communication Engineering graduate with a strong foundation in Java Full Stack Development and web technologies. Skilled in Core Java, OOP, SQL, JDBC, HTML, CSS, JavaScript, Bootstrap, jQuery and Spring Boot. Hands-on project experience with strong problem-solving skills, seeking an entry-level Java Full Stack Developer role.

EDUCATION

- Sengunthar Engineering College (Autonomous)- Tiruchengode, Sep 2022- April 2026**
B.E in Electronics and Communication Engineering- Grade: 8.5 CGPA

EXPERIENCE

Java Full Stack Developer Trainee - Livewire, Salem

May 2026 – Present

- Completed Java Full Stack Development training with hands-on experience in Core Java, Advanced Java, OOP, SQL, JDBC, HTML5, CSS3, JavaScript, Bootstrap, jQuery, and Spring Boot.
- Developed responsive web applications by integrating frontend interfaces with Java-based backend services and database operations.
- Implemented CRUD operations, RESTful APIs, JDBC connectivity, and database interactions using Java and Spring Boot.
- Practiced SQL queries, joins, subqueries, functions, and database operations using MySQL.
- Used MySQL, Postman, Git, GitHub, and VS Code for development, API testing, database management, and version control.

Web Development Intern - Lumi Learn, Trichy

Dec 2024 – Jan 2025

- Developed responsive web pages using HTML and CSS during internship training.
- Worked on converting design concepts into functional web interfaces.
- Practiced front-end development concepts including page structure, styling, and responsive design techniques.
- Collaborated with team members and completed assigned tasks within project timelines.

PROJECTS

Online Job Portal Management System using Java:

Core Java | OOP | Collections | ArrayList | Scanner | Eclipse

- Developed a console-based Online Job Portal using Core Java and Object-Oriented Programming (OOP).
- Implemented user registration, login, profile management, and password recovery functionalities.
- Developed job search and salary-based filtering features to help users find relevant job opportunities.
- Implemented job application, applied-job tracking, and application cancellation functionalities using Java Collections.
- Integrated job portal website navigation to open relevant external job platforms based on job role and company.
- Used ArrayList and arrays to manage user details, job listings, application records, salary, location, experience, and skills.

Powerloom Textile E-Commerce Website:

HTML | CSS | JavaScript.

- Developed a responsive textile e-commerce website using HTML, CSS and JavaScript with a clean and user-friendly interface.
- Created product section with images, description, pricing and Add to cart functionality for different textile products.
- Designed About, Products, Gallery, Reviews, Contact and Production Process sections.
- Implemented responsive layouts using CSS media queries for desktop, tablet and mobile devices.
- Added JavaScript functionality for cart management, quantity updates, item removal and total price calculation.

SKILLS

Programming Languages: Java (core Java, OOP), JavaScript, SQL.

Web Technologies: HTML5, CSS3, Bootstrap, jQuery.

Databases: MySQL, Oracle

Backend & Frameworks: Advanced Java, Spring Boot.

Tools & IDEs: Eclipse, VS Code, Git, GitHub, MS Office.

Soft Skills: Effective Communication, Team Collaboration, Analytical Thinking, Problem Solving, Adaptive Learner

Certifications & Training: Java Full Stack Development Training - Livewire, Salem (Ongoing), Java & SQL - Hacker Rank (Skill Practice), Web Development Internship -Lumi Learn (Completed).
